Mr. Redd’s columns brought increased exposure to the Westchester County Press, and he eventually became the owner in 1986. Under Mr. Redd’s leadership the Westchester County Press became the leading voice of issues impacting the African-American community throughout Westchester. As owner, he would continue to write his “M. Paul Tells All” column until his passing in 2009.

For more than 60 years, the Westchester County Press is the only weekly newspaper owned and run by African-Americans within Westchester County. Now led by Sandra Blackwell, since 2009, the newspaper continues to maintain high journalistic standards when reporting on the African-American community on a local, state and national level. As a result of their unwavering mission, the Westchester County Press is 1 of 200 African American newspapers that are members of the National Newspapers Publishers Association (NNPA).

I want to congratulate the Westchester County Press for serving the Westchester County community for the past 90 years. Their dedication to reporting on issues impacting the African-American community cannot go unrecognized. Lastly, I would like to honor M. Paul Redd Sr.’s nearly 50 years of work, and acknowledge his enshrinement in the NNPA’s Hall of Fame as of 2014.

CELEBRATING GAINESBORO FIRE AND RESCUE COMPANY’S 60 YEARS OF SERVICE TO THE COMMUNITY

HON. BARBARA COMSTOCK OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 28, 2018

Mrs. COMSTOCK. Mr. Speaker, in 1958, plans for a fire department in Gainesboro began to take shape, with the help and direction of the Gainesboro Ruritan Club. Red Williamson was elected the first Fire Chief of Gainesboro and the purchase of a fire truck took place with financial help from the Clearbrook Fire Company and Shade Equipment Company that donated their facilities to install the tank and pumps. The truck was completed and put in service following the first Yard Party in June, 1958.

In March, 1958, the land on which the Gainesboro Fire Company exists was purchased for the sum of $1,200. The firehouse was built by members of the Gainesboro Fire Company and the larger Gainesboro community, and because of their extraordinary generosity of time, energy and money, the entire firehouse was built in one short year, between July, 1958 and June 1959.

The history of the call volume is an indication of the significant growth in the work of the Gainesboro Fire Company. In 1958, there were a total of 11 fire runs, the first being a woods fire in Cross Junction that the Gare Fire Company and Gainesboro assisted with. Five years later, in 1963, there were 65 runs and by 2017, there were over 1,000 runs. This increased demand on the fire company’s services has necessarily involved a significant increase in operational staff, which now amounts to 65 certified firefighters, Emergency Medical Technicians and paramedics.

With an operating budget of nearly $300,000, approximately $130,000 of it needs to be raised by the members of the Gainesboro Fire Company and its Ladies Auxiliary, which was formed in November, 1958. As a resilient, self-sustaining organization, the fire company has put on one type of fundraiser or another almost every month for the past 60 years, adding up to approximately 700 fundraisers during the time of the fire company’s existence.

Mr. Speaker, I know that I speak for all the people of the 10th Congressional District of Virginia in expressing our deep gratitude to our community heroes—our firefighters and emergency medical personnel, along with our law enforcement officers, who are willing to face any situation, no matter how grave or dangerous, to help us in our times of greatest desperation and need. I ask that you and our colleagues join me in thanking Chief Don Jackson and the community heroes of Gainesboro Fire and Rescue Company who, for 60 years, have courageously stepped forward to assist the residents of their community, and to also thank the ladies’ auxiliary and other leaders of the Gainesboro community, who have so generously supported the ongoing work of their community heroes.

HONORING THE PUBLIC SERVICE OF MAYOR BETTINA BIERI

HON. JOSH GOTTHEIMER OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, September 28, 2018

Mr. GOTTHEIMER. Mr. Speaker, I rise today to honor the service of Mayor Bettina Bieri, a staunch and impassioned advocate for the people of West Milford, lifelong humanitarian, and mother of two incredible children.

Mayor Bieri is a dedicated public servant in North Jersey whose countless accomplishments include restoring the New Jersey Watershed, promoting the new library in West Milford, and holding local officials to the highest standards of accountability. These efforts demonstrate her unshakable commitment to serving her community for thirty-two years. Mayor Bieri has consistently fought for her hometown by dedicating herself to better her community on the boards of many local service groups, including the St. Joseph’s Finance Board, the West Milford Animal Shelter, and the West Milford Chamber of Commerce.

As a graduate of Pace University and a Certified Public Accountant, Mayor Bieri successfully utilized her financial expertise and implemented sound fiscal policies to improve West Milford’s credit rating and save her constituents tax dollars. Although Mayor Bieri is retiring from public service, I am confident she will continue to make an indelible impact on those around her through her charitable work and unwavering commitment to helping others.

Mr. Speaker, I am deeply grateful for the contributions Mayor Bettina Bieri has made to West Milford and our community throughout her career. People like Mayor Bieri are what make northern New Jersey such a great place, and I am proud to call her my constituent.

RECOGNIZING MALNUTRITION AWARENESS WEEK

HON. NORMA J. TORRES OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 28, 2018

Mrs. TORRES. Mr. Speaker, I rise today to recognize this week as Malnutrition Awareness Week. Every 60 seconds, 10 hospitalized patients with malnutrition go undiagnosed, with the majority of these individuals being older adults. Malnutrition among seniors and older adults can lead to a greater risk of chronic disease, frailty, disability and increases in healthcare costs.

Malnutrition also disproportionately impacts minorities who are often managing comorbid chronic diseases. In my home district, 80 percent of the constituents I represent are of Hispanic background. It is of great concern to hear that malnutrition is more than twice as common among low-income older adult Latino households.

We cannot advance malnutrition care and promote improved patient recovery if we do not align the identification of and interventions for malnutrition with healthcare quality incentive programs.

The great news is that there are commonsense solutions that can close this gap in care now.

We can first begin by measuring the scope of the problem. Sadly, we currently don’t know the full extent of the malnutrition problems plaguing our senior population. To change this, we can add screening measures for malnutrition to the national health surveys of older adults and implement national key health indicators and Healthy People 2030 goals for older Americans. Doing something as simple as adding malnutrition measures will help shape public health programs and better guide health professionals as they address serious health conditions.

Another simple change we can make is adding older adult malnutrition to national dietary guidelines.

We cannot expect older adults and their families to take steps to address malnutrition if we do not give them the tools to identify the problem. We must meet older Americans halfway so that families can make appropriate interventions for their unique conditions and circumstances. Therefore, I call on HHS and USDA to include dietary guidance for the prevention and treatment of older adult malnutrition and the closely aligned problem of age-related sarcopenia listed in the 2020 Dietary Guidelines for Americans.

Lastly, malnutrition should be interwoven into healthcare incentive programs. A patient’s nutrition status is rarely evaluated and managed as individuals transition across care settings. I therefore urge the CMS to include malnutrition electronic clinical quality measures in Medicare quality programs as well as in measures related to malnutrition in care transition programs. This will help reduce hospital readmission rates and improve transitional care for seniors in the long run.

Increasing awareness of nutrition’s role on patient recovery and implementing these measures will help educate healthcare professionals and families which will result in helping seniors live healthy and independent lives.
IN HONOR OF JILL TANNER FOR NATIONAL OVARIAN CANCER AWARENESS MONTH
HON. BRET GUTHRIE
OF KENTUCKY
IN THE HOUSE OF REPRESENTATIVES
Friday, September 28, 2018

Mr. GUTHRIE. Mr. Speaker, I rise today to honor my constituent Jill Tanner, an ovarian cancer survivor from Owensboro, Kentucky. September is National Ovarian Cancer Awareness Month. Ovarian cancer accounts for 2.5 percent of cancers in women, and sadly, the American Cancer Society estimates that this year, about 22,240 new cases will be diagnosed in the United States. Jill has taken her experience fighting ovarian cancer and has become a fierce advocate for funding and research to fight this disease. I have met with Jill on a number of occasions to discuss what more Congress can do to help those with ovarian cancer, and I want to thank her for her advocacy.

IN RECOGNITION OF ASHLAN BORSARI AND CHILDREN'S CARDIOMYOPATHY AWARENESS MONTH
HON. DAVID YOUNG
OF IOWA
IN THE HOUSE OF REPRESENTATIVES
Friday, September 28, 2018

Mr. YOUNG of Iowa. Mr. Speaker, I rise today to recognize and congratulate Vic Belger for this award, and for providing the youth in Iowa’s Third District the education and direction that they will need to be successful. I am proud to represent him and Creston Community Schools in the United States Congress. I ask that my colleagues in the United States House of Representatives join me in congratulating Vic Belger and wishing him nothing but continued success.

IN RECOGNITION OF BEATRICE TULL AND CHILDREN'S CARDIOMYOCARDIAL DYSPLASIA AWARENESS MONTH
HON. NITA M. LOWEY
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Friday, September 28, 2018

Mrs. LOWEY. Mr. Speaker, I rise today to honor White Plains Hospital as it hosts its 125th Anniversary Gala on Saturday, September 29, 2018.

White Plains Hospital is a not-for-profit health care organization aimed at providing quality and affordable health care to Westchester County and the surrounding areas. In the year following its founding in 1893 by 22 women and three men, the hospital treated 31 patients. Today, it has a staff of 1,100 and treats more than 200,000 patients a year. White Plains Hospital has truly become a cornerstone of our community.

White Plains Hospital not only provides both inpatient and outpatient services, but also aims to improve the health care of the local and professional communities and the business sector. It greatly expanded access to care by opening locations across Westchester County with excellent physicians in, but not limited to, primary care, pediatrics, obstetrics and gynecology, oncology, oncology, dermatology, gynecology, radiology, cardiology, medical & surgical specialties, and urgent care.

Mr. Speaker, I am proud to have worked alongside White Plains Hospital to support quality health care for area residents. I urge my colleagues to join me in recognizing this organization and applauding its 125 years of service to our community as it celebrates this quasquicentennial anniversary.

WHITE PLAINS HOSPITAL
HON. WILLIAM R. KEATING
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES
Friday, September 28, 2018

Mr. KEATING. Mr. Speaker, I rise today in support of the re-introduction of H.R. 7161, the Children’s Cardiomyopathy Awareness Act of 2018.

The Children’s Cardiomyopathy Awareness Act would direct the Centers for Disease Control and Prevention (CDC) to establish a registry of individuals with pediatric cardiomyopathy and their families. The registry would be used to facilitate research on pediatric cardiomyopathy, including its prevention, diagnosis, treatment, and outcomes. The act would also require the CDC to conduct a national research study on pediatric cardiomyopathy.

The Children’s Cardiomyopathy Awareness Act would also require the Secretary of Health and Human Services to establish a national education program on pediatric cardiomyopathy. The program would include materials and resources for caregivers, schools, and other organizations to help them understand the signs and symptoms of pediatric cardiomyopathy and how to recognize it early.

In conclusion, I urge my colleagues to support the Children’s Cardiomyopathy Awareness Act. Together, we can help ensure that children with this disease receive the care and support they need to lead healthy and fulfilling lives.

Mr. Speaker, I rise today to honor White Plains Hospital as it hosts its 125th Anniversary Gala on Saturday, September 29, 2018.
